August 2009

To our Business Partners,

As Director of Sponsorships for the Connecticut Association of Purchasing Management, Inc, I am pleased to announce CAPM's Sponsorship Program for 2009-2010. This Sponsorship Program enables small and large corporations alike to network with a diversified **membership of over 500 supply management professionals** representing major corporations, governmental entities, hospitals and educational groups throughout Connecticut and the surrounding region. Our membership includes companies such as Pfizer, Pitney-Bowes, Aetna, Cigna, Yale University, University of New Haven, and the United States Postal Service to name a few of over **230 different member organizations**.

With a comprehensive marketing program in place, you can be assured that the value of your advertising investment will yield the maximum return. Your organization will have the opportunity to network with our member organizations through our newsletter, web-site, workshops and seminars. The monthly newsletter is distributed to the Connecticut membership as well as to ISM Affiliate offices in MA, RI, NY, and NJ. Our objective is to promote supply management principles and offer leading edge educational and technical support to the supply management community so that they are on the forefront of professional developments within the field.

As one of our corporate sponsors, you now have the opportunity to select from several sponsorship options as detailed in the attached summary. By selecting the sponsorship that best meets your corporate and organizational goals, you will reach a diverse and growing audience, optimize your investment dollars and demonstrate internally the value of a detailed and comprehensive marketing program. **If you are interested in being a sponsor, learning more about becoming a yearly sponsor and/or having your company participate with a trade show booth at the March 31, 2010 Supply Month Conference, please contact the CAPM office by calling 203-488-2456.**

If you believe someone else within your organization would benefit from receiving and reviewing this information, please feel free to forward this information to him/her or to request a second packet of material.

I encourage you to review this information as the first step towards participation in a strategic marketing program which will spotlight your company before a significant and targeted audience of supply chain professionals.

Sincerely,

Carol
